KAHULUI, MAUI

Tomorrow, the beautiful *Norwegian Star* docks in Kahului, on the island of Maui.

Maui, the second largest island, is sometimes referred to as the Valley Isle because it consists of two mountain masses separated by a low narrow valley-like isthmus. The city lies in the flat corridor between Maui's two volcanoes, and this is where most of the island's population lives. Kahului is home to thousands of former sugarcane workers whose dream in life was to own their own home away from the sugar plantation. Kahului is home to the last operational sugarcane factory in Hawaii. "*Maui Tropical Plantation and Iao Valley*" gives you an overview of Maui's agricultural villages, orchards, sugar cane fields and flower gardens.

Although the stretch along Maui's coastline is perfect for relaxing, the island has an underlying energy that inspires people to do things they might not do otherwise. Ascend to the summit of the "*Haleakala Crater*" or better yet, fly over the crater via the "*Huna-Haleakala by Helicopter*". If the pristine waters of Hawaii are in your plans, then head out to sea and look for green sea turtles on one of our many sail or snorkel excursions. Discover a whole new world in the traditional custom of a festive "*Hoku Nui Luau*", a must do while in the islands of Hawaii.

For more information on all of the Shore Excursions we have to offer, see your *Shore Excursion and Dive-In Team*, located in the *Atrium*, on Deck 7.
